

TITLE

WTO 1.0 - MAINTAIN PRODUCTION ISSUE (TRIAL PART)

NO	SESSION/DIAGRAM	INSTRUCTIONS
----	-----------------	--------------

1.0

1.0 Maintain Production Issue (Trial Part):

Open module Warehousing > Orders> Orders

A screenshot of the 'Warehouse Order' list table. The table has columns for Order Origin, Order, Transaction Type, Order Type, and Ship-from. The first row is selected, showing 'JSC Production' as the origin and 'Issue' as the transaction type.

Order Origin	Order	Transaction Type	Order Type	Ship-from
JSC Production	26T000111	1 Issue	W30 PROD ISSUE	Warehouse PHN72
JSC Production	26T000111	2 Issue	W30 PROD ISSUE	Warehouse PHN72
JSC Production	26T000111	3 Issue	W30 PROD ISSUE	Warehouse PHN72
JSC Production	26T000111	4 Issue	W30 PROD ISSUE	Warehouse PHN72
JSC Production	26T000111	5 Receipt	W23 PROD RCPT AUTO NO INSPECTI	Work Center CALOFF

1. Click this icon

A screenshot of the 'Warehouse Order Reclassification' form. The form contains fields for Order, Transaction Type, Ship-From, Ship-To, Address, Location, Delivery Date, Receipt Date, Order Information, and Shipping. Red boxes and arrows highlight specific fields: 'JSC Production (Manual)' in the Order field, 'Issue' in the Transaction Type field, 'PHNTR' in the Ship-From field, 'TR' in the Ship-To field, and '1/2/2021' in the Delivery Date field.

2. Select **JSC Production (Manual)**.

3. Next, insert “PHNTR” in **Ship-From Warehouse** and “TR” in **Ship-to Work Center**.

For OSI kindly use warehouse “OSITR” to work center “OSITR”

4. Insert the Date in **Delivery Date** and **Receipt Date** field.

5. Insert details as below:

- Series: **PRI**
- Order Type: **W30**
- Office: **TR**

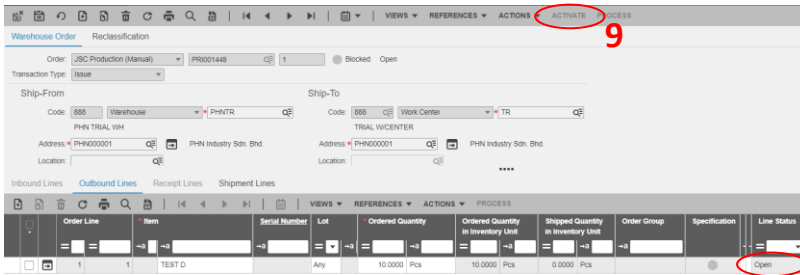

6. Next, click this icon to save. The order number will be auto generate.

A screenshot of the 'Warehouse Order Reclassification' form showing the 'Order Line' table. The table has columns for Order Line, Item, Serial Number, Lot, Ordered Quantity, Ordered Quantity in Inventory Unit, Shipped Quantity in Inventory Unit, Order Group, Specification, and Line Status. The first row is highlighted, showing '1' as the order line, 'TEST 0' as the item, and 'Planned' as the line status.

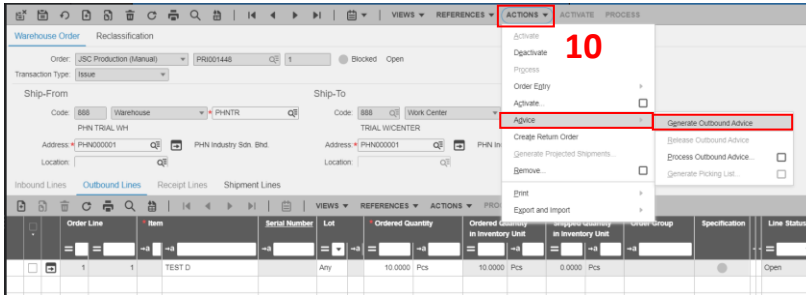

Order Line	Item	Serial Number	Lot	Ordered Quantity	Ordered Quantity in Inventory Unit	Shipped Quantity in Inventory Unit	Order Group	Specification	Line Status
1	TEST 0		Any	10.0000 Pcs	10.0000 Pcs	0.0000 Pcs			Planned

7. Click this icon at the order line below to insert new order line.

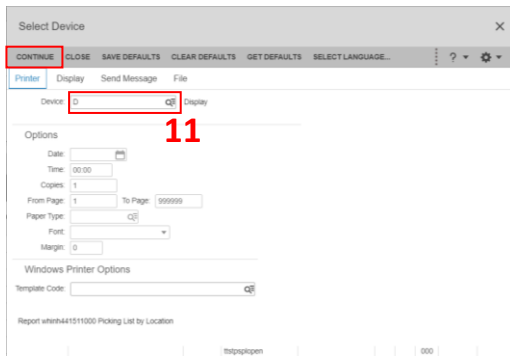

8. Next, insert **part no** and **quantity** in the order line. Then click **Save**. The order line status is now **Planned**.

9. Next, click “Activate”.
Now the order line status is **Open**.

10. Go to **Actions**, select **Advice** and **Generate Outbound Advice**.

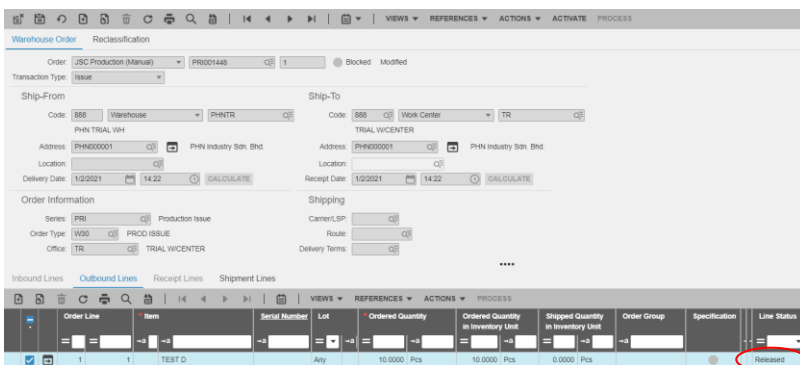

11. Insert **D** in “Device” field and click **Continue**.
